

# Nezul Be Hunuyeh Child & Family Services

## Member Needs Focus Groups

### Who We Are Vision

Providing Child and Family Services to Tl'azt'en Nation, Nak'azdli Whut'en, and Binche Whut'en, our vision is that family systems will be restored based on cultural beliefs. We envision our community as a place where our people will be nurtured and guided by the traditional teachings of our elders. Our people will be empowered to carry forward the cultural practices of caring into the future.

### Mission

Our mission is to work in collaboration with the families and community to:

- Ensure children are protected from harm
- Advocate for systemic change
- Plan, develop and deliver programs and services to meet the needs of the communities
- Promote supportive family and community environments for children and youth
- Provide family support through assessment, referral, and intervention
- Provide Guardianship care to children based on our values
- Provide information and programs designed to promote child safety and wellness

We aim to accomplish this through five distinct service areas including Delegated Child and Family Services, Youth Services, Cultural Services, and Support and Prevention Services.
